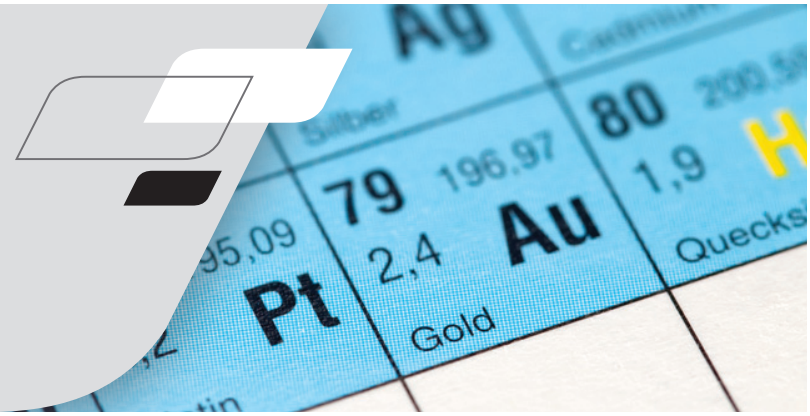
KELLY® | scientific resources

Fun Facts



In 1995, Kelly Services® began focusing on science as an area of strategic interest to address the growing need for comprehensive workforce solutions that were specialized for scientific functions. Since then, Kelly® has grown into one of the world's leading scientific and clinical research workforce companies.

1. Kelly has established relationships with more than **1,000** scientific educational institutions, colleges, and universities, as well as specialized scientific training institutions.
2. Through its Future Scientists Program, Kelly places more than **300** scientific students yearly at major chemical, pharmaceutical, and biotech companies across North America. The interns worked more than **120,000** hours in 2012.
3. Approximately **11,100** Kelly scientific contract employees worked nearly **9.7 million** total hours last year, while another **1,775** scientific employees were hired directly by Kelly customers.
4. Kelly scientific recruiters interview tens of thousands of candidates each year, and hire about **5,200** new scientists.
5. The average length of scientific assignment is more than a year, about **53 weeks**.
6. Kelly provided scientific staff for the drug screening laboratories at the summer Olympic Games in Sydney, Australia.
7. Kelly contract scientists assisted in the creation of a vaccine to combat the biological agent Anthrax.
8. Specifically within the Pharmaceutical, Biotech, and Medical Device industry verticals, Kelly works with **89%** of *Fortune* 500® companies.
9. Kelly was ranked **2nd** of the 15 top scientific/clinical talent providers on the Staffing Industry Analyst's 2012 List of Largest U.S. Staffing Firms, and is the world's most recognized scientific staffing provider.
