

pow•er•ful \ˈpaʊ(-ə)r-fəl\ *adj.*

having great power, influence, force, or effect

Trial Consulting Services:
Kelly Law Registry® partnership gives you
a powerful advantage in the courtroom

Prepare, present, and prosper

We're pleased to partner with inData® Corporation to provide you with comprehensive trial consulting services. When your case is heading to trial and your story needs to be powerful, sophisticated, and persuasive, count on Kelly Law Registry to provide the professionals and resources to dominate the courtroom.

Kelly Law Registry provides professional staffing, human capital, and strategic outsourcing solutions that add sustainable value to corporate legal departments, attorneys, and law firms. Through our partnership with inData Corporation, we're uniquely qualified to provide you with strategic consulting and services for all case needs, from discovery through trial. Our partnership gives you access to personalized trial consulting as well as TrialDirector®, the leading trial presentation software, developed by inData.

Our capabilities include:

Pre-trial preparation. Our trial consultants work in conjunction with your trial team to:

- Assist in pre-trial preparation, including database creation and maintenance
- Coordinate data, including video, documents, and demonstrative evidence, to ensure ease of use, search, and retrieval
- Assist in the preparation, creation, or modification of exhibits
- Create witness video clips from video depositions for impeachment purposes and playback of testimony for unavailable witnesses
- Produce professional presentations
- Prepare trial and witness notebooks
- Develop case presentation strategy
- Help paralegals, attorneys, and expert witnesses understand what presentation techniques work best at trial

War room configuration. Trial consultants help you create an ideal war room for your trial team to comfortably rehearse, gather exhibits, and prepare witnesses 24 hours-a-day. We will:

- Design a comprehensive war room configuration that takes into account your specific needs
- Install necessary computer equipment
- Obtain additional hardware equipment necessary to meet your configuration needs

Courtroom configuration. Our trial consultants will help you ideally configure the courtroom for an electronic presentation. We will:

- Design and install necessary computer equipment in the courtroom, and ensure all hardware and software being used during the trial is fully compatible and operational
- Confirm that the installed presentation system meets the court's approval and conforms to pre-trial specifications
- Schedule equipment set-up and tear-down with court officials
- Provide assistance in renting/purchasing presentation equipment
- Ensure appropriate equipment location for line of sight, lighting, and audio

Trial presentation. Trial consultants use TrialDirector software, specifically developed for use in the courtroom, to visually present your case. We will:

- Provide complete technical support for presentation systems and technology
- Pre-load and present your case exhibits and video at trial with TrialDirector, our cutting-edge trial presentation software

Effective expertise

With years of experience in the courtroom on numerous high-profile cases, our trial consultants are masters of cutting-edge technology that will maximize the impact of your presentations. Our trial consultants will maintain the integrity of the presentation systems throughout the trial and deliver a powerful, persuasive presentation to the judge and jury.

Depend on us

Kelly Law Registry is a business unit of Kelly Services®, a world leader in workforce solutions since 1946. When you combine our solid history, longevity, and values with trial preparation and consulting expertise from inData, you've got a dependable resource for all your legal staffing needs.
