**Kelly Law Registry and inData Corporation Partner to  
Provide National Trial Consulting and Presentation Services**

TROY, Mich. (October 1, 2008) – Kelly Law Registry, the legal staffing business unit of global human resources solutions provider Kelly Services, and inData Corporation announced today its partnership to provide trial consulting and courtroom presentation services nationwide.

Kelly Law Registry is known for its high quality legal staffing and expertise in providing large document review project teams for many of the nation’s top law firms and corporate legal departments. Through this partnership, Kelly Law Registry will expand its legal staffing offerings to include the placement of inData trial consultants experienced in providing comprehensive litigation support – from discovery to final resolution at trial.

The new services include pre-trial preparation, trial presentation, courtroom set-up, demonstrative graphics creation, and war room configuration. Each trial consultant utilizes TrialDirector, inData’s award-winning trial presentation software, and other leading technologies to present the most persuasive, visually telling case before a judge and jury.

“We are excited to enter into this partnership with inData Corporation,” said Gary Buckland, vice president and business unit leader of Kelly Law Registry. “Their expertise in the field of trial technology is unsurpassed. Since Kelly Law Registry offers the most qualified personnel for staffing legal engagements, this partnership is a perfect fit. Many clients use our services for large scale document review and other important duties during the discovery phase of litigation. Being able to staff the trial phase with highly qualified consultants is a natural progression for Kelly Law Registry and a great resource for our clientele.”

“inData has always offered superior trial consulting services and has worked on numerous high-profile cases. With Kelly Law Registry resources behind us, we can now quickly staff a trial anywhere in the country with a highly qualified inData trial consultant and any additional personnel needed, such as war room support,” said Derek Miller, CEO and president of inData Corporation. “The end result is maximum cost efficiency for our clients, while still obtaining the trial expertise unique to inData.”

For more information about trial consulting services offered by Kelly Law Registry, visit [www.kellylawregistry.com](http://www.kellylawregistry.com) or contact a local Kelly Law Registry office.
