

Accelerate your scientific and clinical discovery.

We can help. Getting access to the right talent and the most efficient, flexible portfolio of solutions is the best way to keep up with the evolving world of science.

As a global, specialized scientific and clinical recruitment specialist, we're ready to partner with you. Kelly® Science & Clinical provides a full portfolio of customized talent solutions designed to complement your business needs. With agility and ease, we provide contract and direct hire staffing as well as outsourced and managed solutions including Functional Service Provider (FSP) and full-scale Business Process Outsourcing (BPO).

Last year, Kelly placed a science and clinical professional on assignment every 12 minutes.
