Workforce Insights

- ▶ California's unemployment rate held steady at 4.2% in June. Job gains occurred in nine of California's 11 major industry sectors. The biggest increase was 11,900 jobs in construction. (Associated Press)
- ▶ Another reminder about the need for more affordable housing for the state's workforce: roughly 660,000 people moved out of California to avoid high taxes and find a cheaper cost of living in neighboring states like Nevada and Arizona. (Fox News)
